North American Vehicles

Chrysler / FCA/ Stellantis	GC North American - Orange												GC North American - Purple											
Ford	GC North American - Orange																		GC North American - Yellow					
GM	GC North American - Orange																							
Tesla													GC European - Blue											
Rivian																					GC Universal Blue			

European Vehicles

Alfa Romeo / Fiat	GC European - Blue						GC European - Pink																	
Audi / Volkswagen	GC European - Pink									GC European - Violet														
BMW	GC European - Blue																							
Ferrari	GC European - Blue										GC European - Pink													
Jaguar	GC European - Pink																							
Land Rover	GC European - Blue						GC European - Pink																	
Mercedes	GC European - Blue														GC European - Violet									
Mini Gasoline	GC European - Blue																							
Mini One D / Cooper D													GC European - Pink											
Opel / SAAB	GC European - Pink																							
Porsche	GC European - Pink									GC European - Violet														
Renault	GC European - Pink																							
Volvo	GC European - Blue																							

Asian Vehicles

Acura / Honda	GC Asian - Blue																							
Hyundai, KIA	GC Asian - Green										GC Asian - Pink													
Infiniti / Nissan	GC Asian - Green										GC Asian - Blue													
Lexus / Toyota	GC Asian - Pink																							
Mazda	GC Asian - Green																							
Mitsubishi	GC Asian - Blue																							
Scion	GC Asian - Pink																							
Subaru	GC Asian - Green												GC Asian - Blue											
Suzuki	GC Asian - Green												GC Asian - Blue											
VinFast																					GC NA Yellow			

- Chart is strictly a guide. Always check the owner's manual for specific applications. OEM color and year may vary depending on the model.
- GC Universal Yellow may be used in all the above vehicle applications
- GC Universal Blue may be used in all ICE, Hybrid, and BEV vehicle applications with non-immersed coolant applications

Genuine Chemistry Coolant Product Guide

Case Quantity: 6 /1 Gallon | Pallet Quantity: 36 Cases (216 Gallons)

North American Vehicles

North American - Orange
(Ready to Use)
Organic Acid Technology (OAT)
Part #GC-C2N07-U-01-01

North American - Yellow
(Ready to Use)
Hybrid Phosphate Enhanced
Organic Acid Technology (POAT)
Part #GC-C2N06-U-01-01

North American - Purple
(Ready to Use)
Organic Acid Technology (OAT)
Part #GC-C2N05-U-01-01

European Vehicles

European - Blue
(Ready to Use)
Hybrid Organic Acid Technology
(HOAT)
Part #GC-C2E01-U-01-01

European - Pink
(Ready to Use)
Organic Acid Technology (OAT)
Part #GC-C2E02-U-01-01

European - Violet
(Ready to Use)
Hybrid Silicate Enhanced Organic
Acid Technology (Si-OAT)
Part #GC-C2E02-U-01-01

Asian Vehicles

Asian - Blue
(Ready to Use)
Hybrid Organic Acid Technology
(POAT)
Part #GC-C2A01-U-01-01

Asian - Green
(Ready to Use)
Hybrid Organic Acid Technology
(POAT)
Part #GC-C2A04-U-01-01
Part #GC-C1A04-U-01-01 (Concentrate)

Asian - Pink
(Ready to Use)
Hybrid Organic Acid Technology
(POAT)
Part #GC-C2A02-U-01-01
Part #GC-C1A03-U-01-01 (Concentrate)

Universal

Universal - Yellow
(Ready to Use)
Organic Acid Technology (OAT)
Part #GC-C2U06-U-01-01

Universal - Blue
(Ready to Use)
Phosphate-Enhanced Organic Acid Technology
(POAT)
Part #GC-C2U01-U-01-01
