

## Engine Care

## TECHNICAL DATA SHEET

### **GC**™ Engine Combustion Chamber Cleaner ECF-1

**Deep Clean. Restored Power. Reliable Performance.**

Powerful, water-soluble cleaner that removes stubborn carbon deposits from gasoline engine pistons in under an hour—going beyond what traditional fuel or intake additives can achieve. OEM-approved and eco-friendly, it restores lost power, improves fuel efficiency, reduces emissions, and helps prevent costly repairs. Designed for professional use every 30,000 miles, it delivers fast, proven results that keep your engine running like new.

### **GC**™ Advantage

- ✓ **Superior Cleaning Power**  
Removes heavy carbon buildup from pistons and combustion chambers more effectively than fuel or intake additives.
- ✓ **Fast Acting**  
Cleans thoroughly in under one hour, reducing service downtime.
- ✓ **Water-Soluble, Eco-Friendly Formula**  
Non-toxic, biodegradable, and safer for the environment than solvent-based cleaners.
- ✓ **OEM-Approved and Tested**  
Proven reliability and performance backed by manufacturer validation.
- ✓ **Restores Engine Power & Efficiency**  
Improves combustion efficiency for better throttle response and fuel economy.
- ✓ **Reduces Emissions**  
Eliminates carbon that contributes to harmful exhaust output.
- ✓ **Prevents Costly Repairs**  
Helps avoid engine knocking, rough idling, and misfires caused by carbon buildup.
- ✓ **Recommended Every 30,000 Miles**  
Ideal for preventive maintenance to sustain engine performance and stability.
